

**LOCAL GOVERNMENT NATIONAL INDICATOR SET NOV 2007 –
UK HECA RESPONSE TO CONSULTATION DOCUMENT**

NI Number: NI 186 Per capita reduction in CO₂ emissions in the LA area

1. Is the Technical Definition of this indicator clear? YES

2. Does the Technical Definition for this indicator have any unintended consequences? YES

- The use of a per capita measure will lead to poor comparability across LAs due to variations in levels of business and visitor populations and long distance vehicle movements to other destinations.

3. Will the Technical Definitions for this indicator work in practice? MAYBE

- This will be dependent on improvements to the timeliness and accuracy of data provided and attributability to the LA area and level of influence.

4. Is this indicator defined at the right spatial level? YES

5. Should data for this indicator be provided for any or all of the different equalities strands (please tick the relevant box)? N/A

6. Further comments on the questions above and/or any other comments that are not covered above questions. None
